Hi,

You need ways to attract new customers on social media and on blog content too, right?

As a small business owner, it's getting even more important to be able to create and edit videos for all the different social media platforms as well as your blog or even YouTube videos, but how do you do it without breaking the bank?

You need to either pay for a professional to create video's or you do it yourself. If you choose the latter option, you need to make it as professional looking as you can and for this you need video editing software.

PowerDirector 365 is a software recommended by PCMAG, Tiptenreviews and Techradar.

Even if you're not a professional, you can create awesome videos for websites or social media to attract a lot of targeted traffic. With the "Ai Image Generator" function, you can instantly generate custom images, stickers, or graphics from text.

PowerDirector 365 is great for any small business who can't afford to hire out the video production but understands the importance of having videos on their website and on social media.

It's an awesome piece of technology that is truly amazing, you will be able to tackle the most difficult of video editing without spending a fortune on professionals to do the work for you.

Pro:

- ☐ Access millions of premium videos, photos, and music tracks from Getty Images & Meta Sound Collection.
- ☐ Instantly generate custom images, stickers, or graphics from text.

One click auto-generated subtitles for videos of any length. Create unique looks with custom fonts, colors, and text placement.

## Analyse a posteriori

Afin de tirer des enseignements utiles de la réunion que vous venez d'avoir, réfléchissez aux questions suivantes:

### Résultats de l'entretien?

#### Meine Bewertung

gut  schlecht

#### Meinung meines Gegenübers

gut  schlecht

### Manière dont l'entretien s'est déroulé?

#### Meine Bewertung

gut  schlecht

#### Meinung meines Gegenübers
